18 people have recommended George

"Lightning does strike twice in the same place, and in Georges case, multiple times...That lightning is George's uncanny ability to solve problems, and work technical magic....He does it over and over again....He is great to work with, and he see's business solutions to technical issues, as he figures out the the most difficult of technical challenges, and seems to just solve the impossible...He has done it again for me, so watch out....And if you like, call him for your challenges! Sincerely, Ted Korbelt Partners, Inc. 508.747.7469 www.korbelpartners.com <http://www.linkedin.com/in/tkorbelt>"

— **Ted Korbelt**, *Owner/Recruiter/Headhunter, Korbelt Partners, Inc.*, worked with George at Goldenware Travel Tech

"George's abilities go beyond the "normal" man. His attention to detail and ability to asses, troubleshoot and resolve issues and tasks surpass all others I have known. His vast expertise covers a wide range: system analysis, network infrastructure, data recovery, and application engineering, to name a few. To find such strengths in one man is rare. George has been an excellent friend, mentor and boss. It has been a great pleasure to work with him; as well as, hear other's gratification and satisfaction after referring them to George."

— **Garrett Sullins**, *Flash Developer, GoldenWare Travel Technologies*, worked indirectly for George at Goldenware Travel Tech

"I attended last night's Boston Python Meetup Group where George presented on Werkzeug toolkit. I was impressed by George's passion for Python and writing clean, scalable code in general. George has the intellectual prowess and pure raw experience to write enterprise scale applications in his sleep. George is one of the brightest and most evangelical software engineers I've encountered to date in my career."

— **Marsh C Sutherland (3000+)**, studied with George at Boston Python Meetup Group

"Smart and technically astute. Good grasp of markets and marketing. Dedicated and flexible, willing to pitch in where needed. I enjoyed working with him, especially on engineering and product development issues, which I think are his real forte."

— **Gwyn Jones**, *CEO & Director, Serif (UK/USA)*, managed George at Serif Inc

"I would like to recommend George Lambert as he is just one of those people that make a difference, and who you want on your team. George is highly success driven who solves problems and at the same time makes customers feel good, and he is company, business and technology focused. George was brought into Terralogics as our Customer and Applications Engineer and he soon took on a Development role while working with Post Sales issues. He took it upon himself to learn all about the product, to pitch in and both learn and write the code, and help to evolve the product. George has the ability to see where the need is, and he solves it. He is a true winner, and a must hire for any expanding company that wants A players."

— **Ted Korbel**, *Owner/Recruiter/Headhunter, Korbel Partners, Inc.*, was with another company when working with George at Terralogics

"George and NetMasters were a great partner for Borland, providing high quality add-on components for our products and going out of his way to help the sales group with any sales and projects that involved them. He was a great presenter at our BorCon International User Group Meetings and was very flexible and helpful doing regional events also."

— **Paul McGee**, *Sr. Account Executive, Borland Software Corporation*, was with another company when working with George at NetMasters LLC

"George is an all around know it all when it comes to technology. George has been in the game a long time and continues to amaze me with he is knowledge of all electronic devices. George has been a mentor and is always willing to give advice or help when he is asked. George has been involved in many companies that have been on the leading edge of technology. George has also been a great friend and teacher. George is a very smart person who is a great source of information."

— **Christopher Heath**, *Product Production, GoldenWare Travel Technologies*, worked with George at Goldenware Travel Tech

"Innovative. That is the word for George and his uncanny ability to design solutions using components others take for granted. George doesn't just think outside the box, he puts the box itself to use. Consistently remarkable."

— **Peter Marquez**, *CEO, NetEnvoys Inc.*, was with another company when working with George at PodKey Solutions

"George is very detail oriented and exacting, with a multitude of ideas. His leadership skills are second to none, combined with his knack for programming and negotiations, he makes for a formidable employee/employer in the workplace."

— **Geoffrey Glazier**, *GTT Cleanup Programmer, Goldenware Inc.*, reported to George at

Goldenware

"George is an extremely bright entrepreneur. Knows the web inside and out and thinks of creative ways of delivering profits against it. Technically very astute and delivers."

— **Lance Devin**, *Group Product Manager, Borland*, was with another company when working with George at NetMasters LLC

"I have known George since the early 90's at Serif and had the pleasure of continuing to work with him at Brainstorm and NetMasters. George is exceptionally knowledgeable in all phases data & web development and is particularly skilled at developing and successfully managing, cutting edge web based tools & technology. Beyond his obvious data & management savvy, perhaps his greatest attribute is his phenomenal networking and relationship development skills.....A great person to know."

— **Amy Gilfix-Lowe**, *Director of Sales & Consulting, Comtel Group, Inc.*, was a consultant or contractor to George at Brainstorm Technologies

"George is knowledgeable, has a passion for his work, and has a bias for action. I recommend him highly!"

— **David H. Lawrence, XVII**, *Performer/Air Talent, The David Lawrence Show*, was with another company when working with George at PodKey Solutions

"You can't describe George with just three attributes. He is a very knowledgeable person, very creative, works hard and ensures everyone is pleased with the results. My experience with him is related to data communication products and services, but friendly conversation has proven his knowledge on many subjects and with many skills."

— **Dan Malek**, was George's client

"Brilliant SEO Maven who has a deep understanding of how to position oneself for visibility on the Internet."

— **Fred Mitchell**, *Owner, PlanetaryServer.com*, worked directly with George at PlanetaryServer.com, a LRC affiliate

"Very knowledgeable about many aspects and caveats of computing, marketing and the web. He's made my transition into the field an enjoyable one. I've learned much working under him."

— **Shawn Adams**, *engineer, GTT*, reported to George at Goldenware Travel Tech

"Entrepreneur, Manager, Extremely deep internet technology expert, Teacher, Family man with strong community connections.... George is in a class of his own. He's a great person to talk to about internet commerce from both the business and technology perspectives. From my

perspective one of the most amazing things about George is the way he is a natural social networking hub. I've probably met more people through George than almost anyone else."

— **Eirikur Hallgrimsson**, *Principal Software Engineer, Fast Search and Transfer (Google competitor)*, was with another company when working with George at NetMasters LLC

"George is a dedicated tools developer and one of the earliest supporters of Borland's Delphi. As a Borland partner, his company NetMasters became an integral part of the Borland developer community. He has a portfolio of knowledge when it comes to building, deploying and managing software across the lifecycle. As a veteran tools developer he is committed to integrating with complementary technologies, aimed to help other developers, and is a skilled Service Provider for a variety of industries. I'd highly recommend George for his unique insight on component building, web services, database technologies and processes for the software industry and its customers."

— **Karen Giles**, *Marketing Specialist, Technology Partner Program, Borland Software Corp.*, was a consultant or contractor to George at NetMasters LLC
